

A vision has the power to unite...guide...energize...transform.

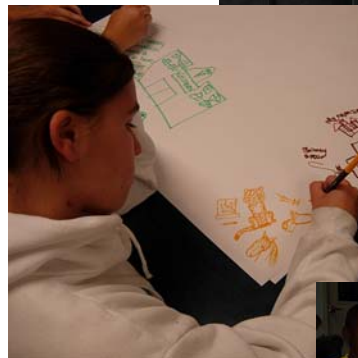

Louisville Metro Government, Metro United Way, Jefferson County Public Schools, and a host of other youth service organizations are hosting conversations to create a community-wide Vision for Youth Success. Regardless of who you are, what your relationship to youth is, whether you have children of your own, where you live in Louisville, or what your demographics are....this Vision for Youth Success can and will impact you!

This Vision for Youth Success is a vision coming from the community...out of your voice.
